

# Backstay flicker

– gives the mainsail space to move

The backstay flicker is a glass fibre rod fitted to the masthead on a fractional rigged boat. It lifts up a wire or rope backstay to allow for free passage of a full roach mainsail.

**Complete kit with fasteners  
and instruction for assembly**

Boat size	Art. No.
< 30 feet	511-120-01
30-37 feet	511-121-01
