

Deck collars

Deck collars are used to prevent tube chafe on keel-stepped masts at deck level. The Seldén range contains two deck collars, a wrap-round collar for when the deck is braced on both the front and side walls, and side chafe plates that can also be used as boom chafe plates to prevent damage by the shrouds.

	Art. No.	Description
	507-336-01	Side chafe plates
	507-337-01	Wrap-round deck collar

Cleat options

	Art. No.	Description
	511-030-01	Composite cleat 110
	511-630-01	Tooth rack
	432-011	Valley cleat

Kicker attachments

The Seldén range of dinghy kicking strap attachments offer a number of options. Our standard kicking strap eye is suitable for most applications, however, there is also the option of a high-load fitting for bigger dinghies, as well as custom solutions for boats such as the Snipe.

Kicking strap mast fittings

	Art. No.	Description
	508-488-01	Standard kicking strap eye
	508-508-30-01	High-load kicking strap eye for carbon spars
	508-478-01	High-loads (through mast) U bolt
	508-486-01	Snipe in-track kicker slider
